

CHAMPION SCAFFOLDING

Case Study:

Pipers Way, Swindon

Customer:

Wates Living Space

Description of works: 204 timber frame houses and apartments.

“Given that Pipers Way was a very difficult project for Wates, the scaffolding went well. Both lead operatives that you had on site provided an excellent service, all operatives acted safely and actioned requests from our management on site.”

Regional Operations Dir. – Wates Living Space

Case Study:

Ewhurst Park, Basingstoke

Customer:

Symm & Co.

Description of work: New build bespoke country house and ancillary buildings.

Case Study:

Wherwell Church, Andover

Customer:

A E Hughes

Description of works: Designed access scaffold to church and spire. Working alongside heritage architects to an exacting design to provide a safe and secure scaffold whilst ensuring protection of building and grounds

“Your chaps have done well in terms of progress. I'm very grateful for your input in resolving all the issues over the last few weeks.”

Partner: AE Hughes

Did you know that at **Champion Scaffolding** we have enough tube to reach outer space? Our vast stocks of materials set us apart and with over a million feet of tube we can reach the top of the Shard in London over a thousand times!!!

So, we know about scaffolding

Services

Operating throughout Central Southern England, we provide the following services:

- Supply and erect scaffolding service
- Labour only service
- Design service (in accordance with EN 12811)
- Trained scaffolding inspectors
- Hire and sales

We can design and erect access structures for all forms of construction; small works, refurbishments and one-off houses up to major industrial projects and entire estate developments.

Safety

The most important aspect of any scaffolding contract, whatever its scale or complexity, is safety.

We have vigorous management procedures and an established and proven training programme in place to ensure the safest working environment for customers, employees and the public.

Our Clients

We work extensively with major construction companies, housing developers, industrial and commercial groups and also on numerous small works. Our major corporate clients expect the absolute quality and reliability reassurances that we are able to offer.

Quality

Champion Scaffolding is an active member of the National Access and Scaffolding Confederation (NASC) with £10M public liability and employer's liability insurance. The NASC is recognised as the national trade body for access and scaffolding in the UK. As members; we are required to employ a minimum of 90% direct staff and maintain a 90% CISRS qualified work force throughout the company. Thus we can vouch for their competence, experience and performance.

Our Team

Scott Edwards – Champion Scaffolding Commercial Manager

A qualified Quantity Surveyor with nearly 30 years experience in the scaffolding industry, Scott has been with the Champion Group for over 20 years. He is responsible for ensuring the smooth running of Champion Scaffolding including commercial, production and technical departments. Scott is also our representative with the National Access and Scaffolding Confederation (NASC) of which we are established members.

Led by Scott our office team consists of 8 key staff members with nearly 200 years experience in the scaffolding industry managing a qualified work force in excess of 100 operatives at any given time.
