

POLICY STATEMENT

CORONAVIRUS (COVID-19)

In regards to the current situation with Covid-19 we would like to share some important information with you to keep you up to date with our operations and pro-active measures to manage the virus in line with the current Government guidelines.

Our focus remains on '**business as usual**' and providing a consistent service to our customers and robust support to our labour force and supply chain.

To pro-actively maintain the business critical functions of our business we have taken simple steps to control our 'office' environment. This is to protect the core business functions as it continues to operate.

In short these measures are taken from the most up to date Government guidelines and include;

- Educating all of our staff on the most up to date information from public health on the self-diagnosis and control measures for Covid-19. This will allow us to better manage any potential for spread of the virus within our workforce and the wider public.
- We have facilitated all staff that are able to work remotely with effect from 5pm on 18th March. These teams will continue to operate as normal
- Social distancing policies are in place to follow the specific guidelines issued by Government.
- As a preventative measure our offices and facilities have been thoroughly cleaned and stringent control measures are in place to prevent the spread of infection.

The Champion Group of companies is committed to pro-actively assessing risk and responding accordingly in line with the evolving advice from the Government.

We remain focused on continuing with all business operations during this challenging time and can assure all staff, clients and suppliers that they have our full support and co-operation in the coming weeks and months.
